

# CONTENTS

|  |     |
|--|-----|
| INTRODUCTION .....   | 5   |
| CHAPTER ONE. MODELLING AND SIMULATION .....  | 7   |
| 1.1. The Computer Simulation Method .....  | 7   |
| 1.2. Simulation Models .....   | 9   |
| 1.3. Principles for the Building of Simulation Models.....                         | 12  |
| 1.4. Generating Random Numbers for the Construction of Simulation Models ...       | 17  |
| 1.5. Beta Distribution .....   | 21  |
| 1.6. Binomial Distribution .....   | 22  |
| 1.7. Constant Distribution .....   | 23  |
| 1.8. Erlang Distribution.....  | 23  |
| 1.9. Gamma Distribution .....  | 24  |
| 1.10. Geometric Distribution .....   | 25  |
| 1.11. Hyper-geometric Distribution .....   | 26  |
| 1.12. Lognormal Distribution.....  | 27  |
| 1.13. Negative Exponential Distribution.....                                       | 29  |
| 1.14. Normal Distribution.....   | 30  |
| 1.15. Poisson's Distribution.....  | 31  |
| 1.16. Triangular Distribution .....  | 32  |
| 1.17. Uniform Distribution.....  | 33  |
| 1.18. Weibull's Distribution .....   | 34  |
| 1.19. A Review of the Literature on Simulation Studies .....                       | 36  |
| 1.20. Software for the Simulation of Manufacturing Processes.....                  | 38  |
| 1.21. Production, Production Systems and Types of Production .....                 | 41  |
| CHAPTER TWO. SIMULATION USING THE <i>TECNOMATIX PLANT SIMULATION PACKAGE</i> ..... | 45  |
| 2.1. Introduction to Tecnomatix Plant Simulation .....                             | 45  |
| 2.2. Basic features of <i>Tecnomatix Plant Simulation</i> Software .....           | 52  |
| 2.3. Modelling of Production Logistics Processes .....                             | 64  |
| CHAPTER THREE. EXAMPLES OF PRODUCTION SYSTEM SIMULATIONS .....                     | 83  |
| 3.1. The Buffer Allocation Problem (BAP).....                                      | 83  |
| 3.2. A Model of the Production System with Three Buffers.....                      | 85  |
| 3.3. A Model of a Production System Consisting of Three Lines .....                | 102 |
| 3.4. A Model of the Production System with a Specified Number of Employees ...     | 109 |
| 3.5. Conclusions.....  | 119 |
